Getting spammed? You have protection.
Spammers target everything your contact forms aren't an exception. Before you get spammed, protect your contact forms with the powerful anti-spam feature Contact Form 7 provides.

Contact Form 7 supports spam-filtering with Akismet. Intelligent reCAPTCHA blocks annoying spambots. Plus, using comment blacklist, you can block messages containing specified keywords or those sent from specified IP addresses.

Before you cry over split mail...
Contact Form 7 doesn't store submitted messages anywhere. Therefore, you may lose important messages forever if your mail server has issues or you make a mistake in mail configuration.

Install a message storage plugin before this happens to you. Flamingo saves all messages through contact forms into the database. Flamingo is a free WordPress plugin created by the same author as Contact Form 7.

WordPress offers you the ability to create a custom URL structure for your permalinks and archives. Custom URL structures can improve the aesthetics, usability, and forward-compatibility of your links. A [number of tags are available](#), and here are some examples to get you started.

Common Settings

- Plain <http://localhost/wp3/?p=123>
- Day and name <http://localhost/wp3/2019/12/11/sample-post/>
- Month and name <http://localhost/wp3/2019/12/sample-post/>
- Numeric <http://localhost/wp3/archives/123>
- Post name <http://localhost/wp3/sample-post/>
- Custom Structure <http://localhost/wp3/%category%/%postname%/>

Available tags:
[%year%](#) [%monthnum%](#) [%day%](#) [%hour%](#) [%minute%](#) [%second%](#) [%post_id%](#) [%postname%](#) [%category%](#) [%author%](#)

Optional

If you like, you may enter custom structures for your category and tag URLs here. For example, using `:topics` as your category base would make your category links like <http://localhost/wp3/topics/uncategorized/>. If you leave these blank the defaults will be used.

This iconic 87 436-seater is the largest venue in South Africa and the country's proud global colossus located in Nasrec, south of Johannesburg.

The unique design of FNB Stadium is highly regarded internationally, and is often fondly referred to as the "Calabash" or "African Pot" after being reconstructed to the tune of R3.3 billion in time for the first ever African World Cup in 2010.

days after being released from prison where he served 27 years.

The venue has hosted the biggest sports and music events this country has ever seen, including the opening and closing ceremonies as well as the final of the 2010 FIFA World Cup™. The continental Africa Cup of Nations final in 2013 was also played at the stadium.

FNB Stadium regularly takes centre stage to full houses for domestic and international football matches. It is a preferred podium of choice for the Soweto derby that involves two South African Premier Soccer League football giants, Kaizer Chiefs and Orlando Pirates.

International rugby test clashes and the biggest global music superstars, including U2, Lady Gaga and Justin Bieber have also featured here to record attendances.

FNB Stadium is, and has been, the go-to platform for other major events in the country, including the funeral of political activist Chris Hani in 1993 and the moving memorial service tribute to Mandela in 2013.

.Coaches PSL

What makes a good coach?

I will be coaching high school soccer. This is my first year coaching, and I want to do the best I can. I've played soccer pretty much all my whole life so I have solid base of knowledge. Physical fitness is my passion. Would a coach that does the conditioning with their team be a good thing? I've never had a coach do that, but I think it might be cool. Opinions? I'm not sure, other than the basics : respect (both ways), a solid plan for each practice/game, dependability, and a good attitude
